MAULE
AEROSPACE TECHNOLOGY, INC.

Service Letter No. 67

FAA: _(signature)_

Date: DEC 16 2005

SUBJECT: *Micro AeroDynamics Vortex Generator System Placard and AFM Supplement*

AIRPLANES AFFECTED: All Maule Models equipped with Votex Generators manufactured between 3/97 – 10/05

STATUS: To provide a caution for the pilot concerning any damaged or missing Votex Generators.

BACKGROUND: It was brought to our attention that the required Minimum Equipment Placard was not placed in the cockpit to be easily seen by the pilot but instead had been left in the Vortex Generator "Spares Kit" Packet on board the aircraft.

ACTION TO BE TAKEN AND MATERIAL REQUIRED:

1) Install the enclosed following Placard <u>in an easily seen location in the cockpit</u>:

   > **If more than five Vortex Generators are damaged or missing, the aircraft is not airworthy.**

   <u>Minimum Equipment Placard</u>

2) Place the following AFM Supplement in the Airplane Flight Manual:

   Maule AFM Supplement for all models when Micro AeroDynamics Vortex Generator System is installed on the aircraft.

Note compliance with this service letter in aircraft logbook, fill out Compliance Record Sheet (Page 2) and return to Maule Engineering Records.

Service Letter No. 67
